

POST-FAST

APPLICATION

Dragon Alfa Post-Fast is suitable for fixing all types of wooden, concrete, plastic and metal posts.

DESCRIPTION

Dragon Alfa Post-Fast is ready to use straight from the bag - no mixing is required.

PACKAGING

Packed in 25kg multi layer paper bags, including a moisture resistant polythene membrane.

48 x 25kg per pallet = 1.2 tonnes

STORAGE

Dragon Alfa Post-Fast is a cement based product and must be stored in unopened bags, clear of the ground in cool, dry conditions.

USAGE

Dragon Alfa Post-Fast is formulated to produce a high early strength concrete, setting in under 10 minutes in normal weather conditions. (In extremely cold conditions setting times will increase).

SETTING THE POST

Fill the hole about 1/4 full with clean water, place the post in the hole and pour in the Dragon Alfa Post-Fast, bring the powder to the level required and level the post to the desired position. Should there be a dry powder still visible sprinkle with clean water and tamp the surface to eliminate any air voids. Will set in 10 minutes.

HEALTH AND SAFETY

Dragon Alfa Post-Fast is a cement based product and therefore (as with wet concrete or mortar) may cause irritation, dermatitis or alkali burns. Contact between cement powder and the skin in conjunction with body fluids may also cause irritation, dermatitis or alkali burns. There exists a serious risk of damage to the eyes - Always wear suitable protective clothing and eye wear. In case of contact with the eyes, rinse immediately with clean water and seek medical advice.

- **Contains Chromium (VI) which may cause an allergic reaction**
- **Keep out of reach of children**
